

Education

Korea Advanced Institute of Science and Technology

Feb 2027 (Expected)

Bachelor of Science, School of Computing

Minor in Business and Technology Management, Semi-minor in Artificial Intelligence

CGPA: 3.53/4.3

Research Interests

Computer Graphics, Generative Model, World Model, Physical AI

Publications

- J. S. Kim*, **K. Y. Thu***, J. Ismayilzada, J. Park, E. Kim, H. Ahmad, N. M. An, J. Thorne, A. Oh., "When Tom Eats Kimchi: Evaluating Cultural Bias of Multimodal Large Language Models in Cultural Mixture Contexts", in *Workshop on Cross-Cultural Considerations in NLP (C3NLP) at NAACL*, February 2025.
— Outstanding Paper Award

Research Experience

GLOW Lab, KAIST

Aug 2026 – Present

Research Intern

Advisor: Prof. Seung-Wook Kim

- lorem ipsum

Scalable Graphics, Vision, Robotics Lab, KAIST

Jan 2026 – Jun 2026

Student Researcher of URP (Undergraduate Research Program)

Advisor: Prof. Sung-Eui Yoon

- Developing a novel approach to reconstruct physically plausible multi-object 3D scenes
- Developing a MPM simulator that is easily generalizable for different object types with varying quantities

User & Information Lab, KAIST

Aug 2024 – Feb 2025

Research Intern

Advisor: Prof. Alice Oh

- Developed a novel image augmentation pipeline to create a cross-cultural VQA image dataset (named MixCuBe), a benchmark for evaluating the cultural awareness of multi-modal LLMs
- Published a research paper on findings about evaluating SOTA VLMs on the developed benchmark as a main author

Industry Work Experience

C&S

Jun 2026 – Aug 2026

Drone Software Engineer

South Korea

- lorem ipsum

Axinvent

Jun 2025 – Dec 2025

IoT Developer

South Korea

- Built low-power Arduino-based environmental sensing devices for smart agriculture. Used LoRa P2P protocol and Raspberry Pi for the communication between devices and the server.
- Developed a synthetic data generation pipeline for the detection of crops' defects in in-the-wild farm images

Highlighted Projects

- **Linear RenderFormer:** Renderformer is an end-to-end fully data-driven transformer-based rendering pipeline developed by Microsoft. Due to its usage of vinalla transformer architecture, it has time complexity $O(N^2)$. I tried to achieve linear time complexity by using a linear attention mechanism, namely Performer (FAVOR++), instead. [Link to Github](#)
- **Dynamic Brain Connectome Learning:** I developed a novel graph machine learning architecture for learning temporal and spatial patterns of brain activation from fMRI images. Two downstream tasks are implemented: (1) brain activation prediction duration language tasks (link prediction) and (2) performance prediction from neural patterns (graph regression) [Link to Github](#), [Link to Poster](#)

Social Contribution

ASCEND (Multi-sports Student Club)

Jan 2024 – May 2025

Futsal Division Head

South Korea

- Led the two of the biggest futsal events in KAIST, Futsal tournament of Sports Festival (2023, 2024) and ASCEND Futsal League (AFL). Involving with rule enforcement, promotions, scheduling, and other logistics of the competitions

KISA (KAIST International Student Association)

Feb 2023 – Dec 2023

Welfare Division Member

South Korea

- Contributed to the operation of various events and welfare programs for KAIST international students, such as KAITalk series (Alumni Talk) and KAIST ONE (Cultural Exhibition)

Thate Pan Hub

Nov 2021 – May 2022

Computer Science Instructor

Myanmar

- Taught foundational principles of computer science and AI to teenagers from all over Myanmar
- Co-organize Hub&Hack, a national hackathon for Myanmar youths
- Gave training on data science for prospective participants of the ASEAN Data Science Explorer competition
- Co-led a science and technology club for familiarizing teenagers with science and technology activities

Honors & Awards

- **Outstanding Paper Award:** Won at the Workshop on Cross-Cultural Considerations in NLP (C3NLP) at NAACL, 2025
- **KAIST Undergraduate Full Scholarship:** 2022 – 2026
- **The Whole Burma 5th:** Achieved the 5th Highest Score at the National Matriculation Exam of Myanmar, 2020
